GENESIS 3:17

GENESIS 3:18

18 **Thorns** also and **thistles** shall it bring forth to thee; and thou shalt eat the herb of the field;

NUMBERS 33:55

EZEKIEL 28:24

24 And there shall be no more **a pricking brier** unto the house of Israel, nor any grieving thorn of all that are round about them, that despised them; and they shall know that I am the Lord GOD.

PROVERBS 24:30

30 ¶ I went by the field of the slothful, and by the vineyard of the man void of understanding;

PROVERBS 24:31

31 And, lo, it was all **grown over with thorns**, and nettles had covered the face thereof, and the stone wall thereof was broken down.

II CORINTHIANS 12:7

7 And lest I should be exalted above measure through the abundance of the revelations, there was given to me a thorn in the flesh, the messenger of Satan to buffet me, lest I should be exalted above measure.

HEBREWS.CHAPTER.THREE_ JEFF.IN HEB SUNDAY_ 57-0901M

49.....Paul saw that Light, insomuch that It even blinded him. He couldn't see, for several days, It was such a reality to him. And he couldn't see for several...

Later on, when he wrote letters, **his eyes bothered him so bad from that, until he wrote with great big letters**. He said, "Seeing that I have written to you with large letters." He couldn't hardly see.

50 He was in jail, and he asked the Lord to heal him of it. And he consulted Him three times. But what did the Lord say? "My grace is sufficient, Paul."

51 Paul said, "Then will I glory in my infirmities." Because, he said, "Except I would be exalted above the abundance of the Revelation, there was given to me a messenger of the Devil, a thorn in the flesh, that buffet me." **He'd get better for a while, and then away they go again.**

Buffet mean "blow after blow." Like the ship on the sea, you know, the waves buffet it, see, blow after blow.

And he would, he'd get better, and then have it again; then get better, have it again. He said, "Lord, what's the matter, You don't take this away from me?"

52 He said, "My grace is sufficient, Paul. Just keep on." It'd keep...

HEBREWS.CHAPTER.THREE_ JEFF.IN HEB SUNDAY_ 57-0901M

53 He said, "Now, if--if I was just perfect, and everything perfect," said, "then when I went along, oh, **I'd get puffed up and say, 'You see, nothing wrong with me. Lord takes care of me, brother. Hallelujah!'**" Then you're getting self-righteous.

54 God has to give you a little something, once in a while, to kind of meeking you up a little, you know. That's right. **Kind of make you realize that He's the Boss.** Oh, isn't He wonderful? Yes, sir, just glory!

55 So he, Paul, then, right after having this great experience...

56 Now, if that would be somebody today, they'd said, "Oh, bless God, hallelujah. Boy, the Lord has done something for me! Glory to God!" But not Paul; he was a Bible scholar.

WHEN.THEIR.EYES.WERE.OPENED.THEY.KNEW.HIM_ TULARE.CA V-22 N-10 WEDNESDAY_ 64-0212

59 We notice, then, Paul, the great revelation that he had of Jesus Christ, Who He was, it was so great to know. Well, God put it in the Bible, that's how great it was. **That's the reason he was given a thorn in the flesh, to keep him down so he wouldn't get big and exalted.** God kept him down, and small, so He could use him in different parts of the country, do for Him what He wanted to, because he had the revelation of Jesus Christ, Who He was.

PRESENT.STAGE.OF.MY.MINISTRY_ JEFF.IN V-11 N-2 SATURDAY_ 62-0908

59.....Now, the--Paul said that, he said, "You would at least plucked your eyes out to give them to me." **'Cause Paul, we think, had bad eyes, 'cause he said, "I've wrote with such big letters." He said, "big letter" but I've got the--the lexicon, and it says "with big letters."** He was in Rome in prison there. It's something wrong. He said his eyes had been bothering him since the heavenly vision. So he... The people

would've plucked out their eyes, seeing Paul suffer, his eyes bothering him, and he suffering. And he asked the Lord to heal him three times. And he said, "Except I would get exalted above the abundance of the revelation, there was sent to me a messenger of the devil that he might buffet me." Now, we'd get pretty good, then hit him again. Then he'd get good, and hit him again.

GALATIANS 4:13

13 Ye know how through infirmity of the flesh I preached the gospel unto you at the first.

GALATIANS 4:14

14 And my temptation which was in my flesh ye despised not, nor rejected; but received me as an angel of God, even as Christ Jesus.

II CORINTHIANS 12:7

7 And lest I should be exalted above measure through the abundance of the revelations, there was given to me a thorn in the flesh, the messenger of Satan to buffet me, lest I should be exalted above measure.

GENESIS 3:18

18 Thorns also and thistles shall it bring forth to thee; and thou shalt eat the herb of the field;

JOB 31:40

40 Let thistles grow instead of wheat, and cockle instead of barley. The words of Job are ended.

HOSEA 10:8

8 The high places also of Aven, the sin of Israel, shall be destroyed: the thorn and the thistle shall come up on their altars; and they shall say to the mountains, Cover us; and to the hills, Fall on us.

MATTHEW 7:15

15 ¶ Beware of false prophets, which come to you in sheep's clothing, but inwardly they are ravening wolves.

MATTHEW 7:16

16 Ye shall know them by their fruits. Do men gather grapes of thorns, or figs of thistles?

Thistles multiply enormously; a species called the Carolina sylvestris bears ordinarily from 20 to 40 heads, each containing from 100 to 150 seeds.

Another species, called the Acanthum vulgare, produces over 100 heads, each containing from 3 to 400 seeds. If these thistles produce at a medium only 80 heads, and that each contains only 300 seeds; the first crop from these would amount to 24,000. Let these be sown, and their crop will amount to 576 million.

Sow these, and their produce will be thirteen billion, eight hundred and twenty-four million;

and a single crop from these, which is only the third year's growth, would amount to three hundred and thirty-one trillion, seven hundred and seventy-six billion;

and the fourth year's growth will amount to seven quadrillion, nine hundred and sixty two trillion, six hundred and twenty four billion.

A progeny more than sufficient to stock not only the surface of the whole world, but many of the planets of the solar system, so that no other plant or vegetable could possibly grow, allowing but the space of one square foot for each plant.

GENESIS 2:15

15 And the LORD God took the man, and ***PUT him into** the garden of Eden to dress it and to keep it.

GENESIS 2:16

GENESIS 3:18

18 **Thorns** also and **thistles** shall it bring forth to thee; and thou shalt eat **the herb of the field**;

GENESIS 3:19

THE.SEVENTIETH.WEEK.OF.DANIEL_ JEFF.IN DA 89-141
SUNDAY_ 61-0806

65 Now, we got two--three different calendars. We go back to the old astronomy calendar, and we find out that in the Julian calendar there is 365 1/4 day in a year. They timed that by the passing of Sardis and the different stars and so forth, they timed it. Now, we find in the Roman calendar, that we live under now, 365 days in a year by the calendar. But in the Christian or prophetic calendar we find there's only 360 days in a year.

Now, you might wonder how this confusion come about. Now, this I can only say as myself speaking. I believe that back before the antediluvian destruction, back in the days of Job and so forth, that they kept the time by the stars, and we understand--or back **before that time that the world stood upright**. And then in the sin of man, the overflow of the world, and it tilted and the floods came; therefore, we have the great ice glaciers and so forth; and all the top and bottom of the earth is full of ice. We know that. **And the earth does not set straight up; it sets tilted. That shook it out from where the moon and stars, where they was looking at, and misplaced then, or--or you could not keep time by it any more, because it's setting lopsided--setting tilted back.** Therefore, it would not hit them stars at the same time, because it's--it's out of cater to them stars.....

An international team led by scientists from the Goethe University and the Biodiversity and [Climate Research](#) Centre in Frankfurt, Germany, has discovered an intense warming phase around 52 million years ago in drill cores obtained from the [seafloor](#) near [Antarctica](#) – a region that is especially important in climate research.

The study published in the journal Nature shows that tropical vegetation, including palms and relatives of today's tropical Baobab trees, was growing on the coast of Antarctica 52 million years ago. These results highlight the extreme contrast between modern and past climatic conditions on Antarctica.

The [Sahara](#) is the world's largest hot desert. At over (3,500,000 square miles), it covers most of Northern Africa, making it almost as large as the United States or the continent of Europe. The desert stretches from the Red Sea, including parts of the Mediterranean coasts, to the outskirts of the Atlantic Ocean. Some of the sand dunes

can reach (600 ft.) in height. Mixed in with the oceanic sands there are large rock formations, boulders, stones and pebbles.

It wasn't always a vast desolate ocean of sand; around 5,000 years ago it was a very different terrain. It was a sub-tropical paradise a lush, green wonderland of lakes, vegetation, where deer, hippos and elephants were hunted and giraffes and rhinoceros roamed the area. With a plentiful supply of food, thousands of hunter-gatherers flocked to live in this lush savannah.

These facts are evident from the discovery of hundreds of human graves and numerous [rock paintings](#), depicting people hunting and even swimming. Furthermore, radar images taken by the NASA space shuttle show that beneath the sand are [networks of rivers](#), once spanning the entire Sahara. North Africa was once alive with people! What happened to this lush green world?

Beneath the sands of the Sahara Desert scientists have discovered evidence of a prehistoric megalake. Formed some 250,000 years ago when the Nile River pushed through a low channel near Wadi Tushka, it flooded the eastern Sahara, creating a lake that at its highest level covered more than 42,000 square miles.

The Sahara, which covers nearly a third of Africa, was once a lush savanna, teeming with wildlife, fish-filled lakes, and ancient humans. "Between 10,500 and around 5,550 years ago, it was a good place to live," says [Stefan Kröpelin](#), a geoarchaeologist at the University of Cologne in Germany, who has spent the last 30 years leading excavations in the eastern Sahara, a region that until recently has been largely unexplored.

Kröpelin and his colleague Rudolph Kuper have unearthed hundreds of geologic samples and more than 500 archaeological artifacts—everything from animal bones to cave art—at over 100 sites.

Scientists have found what might have been the ideal ancient vacation hotspot with a 74-degree Fahrenheit average temperature, alligator ancestors and palm trees. It's smack in the middle of the Arctic.

First-of-its-kind core samples dug up from deep beneath the Arctic Ocean floor show that 55 million years ago an area near the North Pole was practically a subtropical paradise, three new studies show.

The scientists say their findings are a glimpse backward into a much warmer-than-thought polar region heated by run-amok greenhouse gases that came about naturally. "Imagine a world where there are dense sequoia trees and cypress trees like in Florida that ring the Arctic Ocean

Antarctica is the coldest, most desolate place on Earth, a land of barren mountains buried beneath a two-mile thick ice cap. Freezing winds batter its shores while week-long blizzards frequently sweep its glaciers. Yet this icy vision turns out to be exceptional. For most of the past 100 million years, the south pole was a tropical paradise, it transpires.

"It was a green beautiful place," said Prof Jane Francis, of Leeds University's School of Earth and Environment. "Lots of furry mammals including possums and beavers lived there. The weather was tropical. It is only in the recent geological past that it got so cold."

As far as vacation destinations go, Antarctica isn't much. Most of its surface is covered by a layer of ice [a mile thick](#), and it experiences the lowest temperatures ever recorded on Earth. But millions of years ago, it was a tropical paradise compared to now, at least. At that point, it was covered not by ice, but by trees, and scientists are uncovering the fossil evidence of those long-dead forests today.

IN NORTHERN ARIZONA HAVE BEEN FOUND THOUSANDS OF FOSSILS OF OYSTERS, SEA SHELLS, FISH, AND SHARKS TEETH IN THE DESERT WHICH HAS AN ELEVATION OF 4,000 FT
